BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 1011.1 of Title 56, unless there is created a duplication in numbering, reads as follows:

Sections 1 through 10 of this act shall be known and cited as the "Oklahoma Medicaid Reform Act of 2006".

SECTION 2. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 1011.2 of Title 56, unless there is created a duplication in numbering, reads as follows:

A. The Oklahoma Health Care Authority is authorized to seek waivers and/or other federal authorizations to create a statewide program to provide for a more efficient and effective service delivery system that enhances quality of care and client outcomes in the Oklahoma Medicaid Program.

B. The Oklahoma Health Care Authority shall develop and submit for approval, applications for waivers of applicable federal laws and regulations as necessary to implement the provisions of the Oklahoma Medicaid Reform Act of 2006. Copies of all waivers submitted to and approved by the United States Centers for Medicare and Medicaid Services under this section shall be provided to the Legislature within ten (10) days of their approval. The Oklahoma Health Care Authority shall submit a plan containing a recommended timeline for implementation of any waivers and budgetary projections of the effect of the Oklahoma Medicaid Reform Act of 2006. This implementation plan shall be submitted to the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate.

C. By July 1, 2008, phase one of this act shall be implemented within a contiguous area of the state with rural and urban characteristics. The Oklahoma Health Care Authority shall contract for an independent evaluation and report findings of this phase of the act to the Governor and the Legislature. After an independent evaluation and report to the Governor and Legislature, if it is determined that the evaluation establishes improved access to health care, improved health care outcomes, and improved cost efficiencies, it is the intent of the Legislature that components of the act be phased in statewide by the year 2013.

D. Upon this evaluation and determination of improvement by the Governor and Legislature, the Oklahoma Health Care Authority shall

negotiate a plan for statewide expansion of the act from the Centers for Medicare and Medicaid Services.

E. The purpose of the Oklahoma Medicaid Reform Act of 2006 is to:

1. Provide Medicaid consumers who are younger than sixty-five (65) years of age and considered insurable more options in the selection of a health care plan that meets the needs of consumers and allows consumers to exercise greater control over the medical care that consumers receive. For purposes of this section "insurable" means that the cost of enrolling an individual in a private plan is equal to or less than the cost to the state of the individual remaining in the current Medicaid program;

2. Stabilize Medicaid expenditures in the act areas compared to Medicaid expenditures in the test areas for the three (3) years preceding implementation of the act, while ensuring:

- a. consumer education and choice,
- b. access to medically necessary services,
- c. coordination of preventative, acute, and long-term care services, and
- d. reductions in unnecessary service utilization;

3. Provide an opportunity to evaluate the progress of statewide implementation of the Oklahoma Medicaid Reform Act of 2006 as a replacement for the current Medicaid system; and

4. Introduce competition as a factor that lowers the cost of the act.

SECTION 3. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 1011.3 of Title 56, unless there is created a duplication in numbering, reads as follows:

The Oklahoma Health Care Authority shall have the following powers, duties, and responsibilities with respect to the development of the program established in Section 2 of this act:

1. The consumer education component shall include the following:

- a. to develop a choice counseling system to ensure that the choice counseling process and related material are designed to provide consumers an understanding of both public and private health insurance options provided by this act including incentives through face-to-face interaction, by telephone, and in writing, and through other forms of relevant media,
- b. to develop a system to ensure that there is record of recipient acknowledgment that choice counseling has been provided, and
- c. to develop a choice counseling system that promotes health literacy and includes an educational component

that is intended to promote proper utilization of the health care system;

2. The consumer choice component shall include the following:
 - a. to develop a system to enable insurable Medicaid consumers to access commercial health insurance policies,
 - b. to develop an actuarially sound cost per Medicaid consumer within different age groups and other relevant categories including health status to provide medically necessary services which may be separated to cover comprehensive care, enhanced services, and catastrophic care. This cost would be converted into a credit or instrument of value for the Medicaid consumer to purchase qualified health insurance policies,
 - c. in conjunction with the Oklahoma Insurance Department, to determine benefits and standards for commercial insurers accessed by Medicaid consumers,
 - d. to allow consumers to purchase health care coverage through an employer-sponsored health insurance plan instead of through a qualified health insurance plan. This provision shall be known as the employee choice option. A recipient who chooses the Medicaid employee choice option shall have an opportunity for a specified period of time, as authorized by the Centers for Medicare and Medicaid Services, to select and enroll in a qualified health insurance plan,
 - e. to develop a process for Medicaid consumers to select commercial health insurance options, the Oklahoma Health Care Authority shall develop a plan to implement a personal health account system as an enhanced benefit. Monies deposited into a personal health account shall only be used by the recipient to defray health-care-related costs including, but not limited to, copayments, noncovered benefits, and wellness initiatives. The Health Care Authority shall promulgate rules guiding personal health account transactions; and
3. To provide a grievance-resolution process for Medicaid consumers enrolled in a health plan. This process shall include a mechanism for an expedited review of a grievance if the life of a Medicaid recipient is in imminent and emergent jeopardy.
4. To provide a grievance-resolution process for health care providers employed by or contracted with a health plan to settle disputes among the provider and the health plan or the provider and the Oklahoma Health Care Authority.
5. By July 1, 2008, the Oklahoma Health Care Authority shall institute cost-sharing methods and/or benefit modifications within federal limitations to eligible persons whose family income is between one hundred thirty-three percent (133%) and one hundred eighty-five percent (185%) of the federal poverty level. The

benefits shall be no less than the state-sponsored health care coverage through the state premium assistance program authorized in subsection D of Section 1010.1 of Title 56 of the Oklahoma Statutes.

6. Notwithstanding any other provision of this section, coverage, cost sharing, and any other component of employer-sponsored health insurance shall be governed by applicable state and federal laws.

7. The Oklahoma Health Care Authority shall develop a system to ensure that the implementation of the provisions of this act do not negatively affect the ability of American Indian or Alaska Native beneficiaries to access services at Indian Health Service facilities, tribally operated health facilities and Urban Indian Health Programs.

8. The Oklahoma Health Care Authority shall develop a system to ensure that the implementation of the provisions of this act do not negatively affect the reimbursement structure between the Oklahoma Health Care Authority and the Indian Health Service facilities, tribally operated health facilities and urban health programs.

SECTION 4. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 1011.4 of Title 56, unless there is created a duplication in numbering, reads as follows:

A. The Oklahoma Health Care Authority shall conduct a needs analysis to design a database of clinical utilization information or electronic medical records for Medicaid providers. This system shall be web-based and allow providers to review on a real-time basis the utilization of Medicaid services including, but not limited to, office visits, inpatient and outpatient hospitalizations, laboratory and pathology services, radiological and other imaging services, dental care, and patterns of dispensing prescription drugs in order to coordinate care and identify potential fraud and abuse. The Oklahoma Health Care Authority shall evaluate and report findings to the Governor and the Legislature by January 1, 2008.

The pilot program may include, but is not limited to, providing hardware, software, and connectivity for a limited number of prescribers. The prescribers who participate may be given vouchers for hardware, software, and connectivity, or the Oklahoma Health Care Authority may use direct vendor contracts. The Oklahoma Health Care Authority shall:

1. Within the messaging capabilities of the electronic prescribing system alert prescribers when patients are prescribed multiple drugs that may be duplicative, contraindicated, or have other potential problems related either to other medications or health status of the patient;

2. Track spending trends for prescription drugs and deviation from best-practice guidelines and notify prescribers who consistently fall outside those guidelines, comparing those prescribers who are using the electronic prescribing system to those who are not in order to determine whether the pilot program should be expanded; and

3. In conjunction with disease management programs or other targeted interventions, alert prescribers to patients who fail to refill ongoing or maintenance medication prescriptions in a timely fashion.

C. A report of this pilot program shall be submitted to the Governor and the Legislature no later than eighteen (18) months after the start of the program.

SECTION 6. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 1011.6 of Title 56, unless there is created a duplication in numbering, reads as follows:

A. The Oklahoma Health Care Authority shall develop a formal program for disease management to improve the quality of care and reduce the cost of care. The Authority is authorized to contract for the development of the program if contracting is more cost effective to the state than developing the program internally. The disease management program may utilize pharmacy services including, but not limited to, Medication Management Therapy. The program may include, but not be limited to, asthma, diabetes, chronic obstructive pulmonary disease, renal disease and/or congestive heart failure.
